HENRY E. MESSINGER.

REPORT OF SCHOOL BOARD.

To the Citizens of Stoddard:—

Since our last report another school year has gone into the irrevocable and unreturnable past; a year with its great opportunities for growth and development, so much of which has been wasted through failure to grasp the mighty import of the need of education; through the utter disregard of parents to the great responsibility they have in providing for the future welfare of their offspring. The school board have reached the conclusion that a more rigid enforcement of the *law* is needed in regard to the attendance of children. This ought not to be necessary. Every citizen of the town ought to be concerned in the regular attendance of pupils, so that there should be a strong public sentiment in favor of every child attending every session of the school that it is possible for them to get to. We find that parents get most of their knowledge of the schools from hearsay, or from the scholars. Very few visit the schools. It used to be the practice of parents to visit the school at which their children attended, but this very commendable habit has gone into disrepute, of late, and now we find teachers commended or condemned for what is said of them by their friends, or by those whom they have been unfortunate enough to have made enemies of. Some of the parents have never visited the school since the time they graduated, having got as far as long division, or possibly a little farther, yet they can tell how the school is going, just according to how the teacher happens to suit their fancy.

This criticism does not apply to all the parents, of course, but its effect upon the schools, by those to whom it does apply, is injurious and retarding. In schools the size of

those in this town, only the most cordial co-operation of parents with the school board, can achieve the best results. When it gets to be that force is needed in all the work of the schools, then the situation has reached a point where good judgment is required. We are filled with dismay by the apparent don't care attitude when the children have reached the age at which the greatest progress should be made, that is, at about the age of fourteen, when so many leave school to go to work, or more often because they are tired of going and want to hunt or play.

Our school population is now the smallest of any town in the county, except one, and they are scattered over a large territory. The only scholars in what was Division No. 2, are Mr. Whippie's children. In the spring they were schooled in Marlow, and tuition and mileage paid. In the fall they attended the school at the Center, walking both ways, and were regular and punctual in attendance. They were allowed mileage. We are convinced that the distance is too great for a child to walk, taking too much of their strength. It would be better to provide conveyance. It is not profitable from any view point to maintain a school of four scholars, or even five or six scholars, and here we meet with a problem at South Stoddard. During the spring and fall there were six or seven pupils, but owing to various causes the number became reduced to two. At the present time there are three, or possibly four, of school age, and it seems advisable that a reliable person be hired to convey these pupils to and from the Center. The two boys of Daniel Sweet attended school in Sullivan, as usual, and Charles E. Page's daughter went to Munsonville.

We would recommend that the district raise the sum of \$60 for school officers' salaries, and \$25 for school supplies. It does not seem that any high school tuition will be needed.

SCHOOL NO. 1.—CENTER.

The spring term was taught by Miss Martha O. Card of Cambridge, Mass. There was a good deal of criticism of her school, some of which was just, but most of it unjust. Miss Card is a lady in every sense, and a Christian woman. All that she lacked was a training for a country school. The term was cut short one week on account of dissatisfaction. Wages of teacher per month, including board, \$42. Number of different pupils registered, 17. Average daily attendance, 13.79. Cases of tardiness, 13. Visits by school board, 8; by parents and others, 14. Number not absent or tardy, 7. Length of school in weeks, 10.

The fall term of 18 weeks was taught by Miss Florence I. Gibson of Rindge. This was Miss Gibson's first term in teaching, but she showed marked ability as a teacher, having taken the state examination and holding a state teacher's certificate. We believe all that was needed to make this school a complete success was the hearty co-operation of the parents. We were well pleased with the interest maintained and the thoroughness of instruction. A good deal of attention was given to the "three R's," and more attention to physiology and hygiene than for some time past. Wages of teacher per month, including board, \$42. Whole number of pupils registered, 21. Average daily attendance, 12.68. Cases of tardiness, 5. Visits by school board, 12; by parents and others, 11. Number not absent or tardy, 1.

SCHOOL NO. 3.—SOUTH STODDARD.

The spring term was taught by Miss Margaret A. McCoy of North Hampton, N. H. The school was not satisfactory to the school board or parents, but was not nearly so bad as represented by those who had not visited the school. Length of school in weeks, 9 2-5. Wages of teacher per month, including board, \$38. Whole num-

ber of different pupils registered, 8. Average daily attendance, 7.83. Visits by school board, 3; by parents and others, 19. Number not absent or tardy, 4.

The fall term was under the instruction of Miss Minnie A. Bailey of Nelson, who possesses the qualities of a successful teacher. The school started out with bright prospects with 7 pupils. At the end of the first week one dropped out and left town. The school continued for 11 3-5 weeks, all told, the teacher having to be away a few days on account of death in her family. At this time three of the older boys, being possessed with the hunting fever, dropped out, and another pupil left to go to Massachusetts to school. There remained only two pupils, and Miss Bailey became discouraged and closed the school forthwith. These boys, being over 14 years old, were beyond the control of the school board, and through their action, coupled with that of the other pupil, a good school was broken up. No blame attaches to Miss Bailey. She had the respect and confidence of all, but it shows a great lack of appreciation of school advantages. Wages of teacher per month, including board, \$38. Whole number of pupils registered, 8. Average daily attendance, 6.07. Cases of tardiness, 2. Visits by school board, 2; by parents and others, 5. Pupils not absent or tardy, 3.

The following names are found on the roll of honor:

For the year—Mildred C. Schultz, Ruth Cutter, Madeline E. Schultz.

For one term—Everett L. Cutter, Marion Cutter, Harvey Cutter, Lauraette Cutter, Mabel Cutter, Harry Hale, and Beatrice Thibodeault.

Respectfully submitted by the chairman for

C. B. McCLURE,
H. E. SPAULDING,
ELLA E. ABBOTT,
School Board.

REPORT OF TREASURER OF SCHOOL BOARD

RECEIPTS.

Received from Geo. F. Reed, treasurer in 1911, 1912.	\$ 32 93
May 24. Received from town treasurer,	200 00
